## PROFILE

My name is Ahmad Ammar Musyaffa and I am an undergraduated student of Informatics Engineering. Currently, I am enrolled at State University of Malang, with a primary focus on full stack development. I have many basic skills like in HTML, CSS, and JavaScript, which I have learned and implemented across various projects. Right now I learn how to make a website with React, Tailwind CSS, and Laravel.

## EXPERIENCES

### Independent Freelancer | Aug 2023 - Present

#### Website Developer

- Responsible for designing, developing and implementing responsive, functional and aesthetic websites for my clients

### Exoria Data Store | Dec 2023 - Feb 2024

#### Front End Developer Volunteer

- Contribute to designing and developing attractive and responsive user interfaces for their website.
- Collaborate with the team to implement established designs, ensuring that user experience is a top priority.

### NPC Team Hackfest 2024 | Dec 2023 - Jan 2024

#### Hipster Role

- Collaborate with team members to design and develop intuitive and engaging user interfaces for the solutions we develop.
- Understand user needs and translate them into satisfying experiences through responsive and aesthetic design.
- Participate in the iteration and testing process, ensuring that our solutions are not only innovative but also functional and fit our goals for the event.

## EDUCATION

### State Senior High School 3 Malang | 2019 - 2022

- Member of an Islamic spiritual organization called SKI Bhawikarsu, especially in the da'wah department

### State University of Malang | 2022 - 2026

- Become a member of the Google developer student club, especially in the technical team of the web development division

# ORGANIZATION

## SKI Bhawikarsu | Oct 2020 – Nov 2021

- Collaborate with teammates to create da'wah content that is inspirational and relevant to the needs of teenagers.
- Committee member in various Islamic religious activities at school

## Google Developer Student Club UM | Oct 2023 – Present

- Providing simple and useful learning for other members, especially in web development.
- Collaborate with fellow students who have the same interests and enthusiasm especially in web development.
